The Emperor Allergens Information

This guide lists what allergenic ingredients are contained in each of our dishes, marked with a red dot. Please be advised this includes all dishes that 'may contain' allergenic ingredients.

So what does it mean?

1. Sometimes a specific ingredient may not be labelled on our menu but it may be found in a sauce that is used to prepare or marinade.
2. Some dishes are fried in oil that is used to fry other dishes that include allergenic ingredient.
3. Some of our ingredients are packed in a facility that also processes other allergenic ingredient.

For Example: You may have seen food labels that state 'May contain traces of nuts'.

This means cross-contact from an outside source is possible.

4. Our dishes are prepared in areas in which allergenic ingredients are present.

We want to make sure that the safety of our customers is taken seriously, and since we cannot guarantee that our dishes are 100% free of these allergenic ingredients as stated in the reasons above, we have updated the chart accordingly.
